

SAFE STAFFING SAVES LIVES INFORMATIONAL PICKET HELD AT GLENDALE MEMORIAL

In a strong demonstration of Union Solidarity, over 250 union members from CHEU and CNA held an Informational Picket on Wednesday, June 20, 2012.

Glendale Memorial Nursing Administration has not fully resolved the patient care concerns brought to them in many occasions, among them are:

- **Chronic Understaffing**
- **Daily Violation of the Safe Staffing Ratios Law**
- **PCA (Patient Care Assts) have 20-30 patients in any given shift**
- **Charge RNs have full patient loads**
- **Budget/Profits over Patient Safety**

Caregivers and RNs pledge to continue providing the best possible patient care despite management's lack of support and leadership. In the meantime, members continue to sign petitions for Medicare For All and Protect RN-to-Patient Ratios Law, which is under attack from CHA (Ca. Hosp. Assoc.) & SEIU-UHW's President Dave Regan.

CNA + CHEU = Strength & Success
